## Background Information

As many of you know in the past, the Parish Directory was published approximately every five years. The last directory published was poorly subscribed so Parish Council has decided to try something new. The envisioned directory would be published 5.5 in X 8.5 in pages by ourselves. The directory will be easy to update and will be provided free of charge ready to be put in your own binder.

## Family Information

The attached form is to use for a family history. Suggested items to include are such things as occupations, hobbies, why you came Olds, Sundre, Didsbury etc.. You can include anything and as much or as little as you wish. Circumstance change, families change so we think this is a good format to update annually or whenever there is a large number of changes submitted.
